**DETAILED ACTION**

***Terminal Disclaimer***

1. The terminal disclaimer filed on 4/19/05 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent granted on 10/721,908 has been reviewed and is accepted. The terminal disclaimer has been recorded.

***Allowable Subject Matter***

2. Claims 1-20 is allowed.

3. The following is an examiner's statement of reasons for allowance: Regarding claims 1 and 16, prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such manner that a rejection under 35 U.S.C 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims, which include a scanning optical system for dynamically deflecting a laser beam comprising an optical element including a central area, at least one first outer area, at least one second outer area so that the beam after passing through said at least one second outer area will be in a second phase state which is different from the first phase state and includes a state where the beam has no phase difference relative to the beam passing through the central area as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
